

## PROJECT REPORT

ON

### **“Gym Management System”**

Sumbitted to

**Sahyadri Bahujan Vidya Prasarak Samaj's**

SAHAKAR MAHARSHI BHAUSAHEB SANTUJI THORAT COLLEGE OF ARTS, SCIENCE  
AND COMMERCE, SANGAMNER

**Tal - Sangamner, Dist - Ahmednagar, (422605) NAAC Accredited 'B' Grade**

Affilated to

**“Savitribai Phule Pune University, Pune”**

**In partial fulfilment of  
Bachelor of Business Administration**

**(Computer Application) /BCA**

Submitted By

**Mr.OM RAUT**

**Under The Guidence Of**

**Prof: Daware P.T**

**S.M.B.S.T. College Sangamner,**

**Tal-Sangamner , Dist-Ahmadnagar**

Date:

# CERTIFICATE

This is to certify that the project entitled ."**GYM MANAGEMENT SYSTEM**".Submitted in partial fulfilment of the requirement of Bachelor degree in Business Administration BBA (CA),Savitribai Phule Pune University, Pune and embodies the bonafide work carried out by **Mr. OM RAUT.**

We find that the work is complete, comprehensive and of significantly appropriate Standard to warrant its presentation for the purpose of BBA (CA) examination.

This is his original work carried out under the guidance and supervision of project guide.

# Introduction

- Our Gym Management Software is a gym and health club membership management system. You can keep records on your members, their memberships, and have quick and easy communication between you and your members.
- Gym Management also includes a booking system, point of sale, banking, accounting, concessions and has a range of reports that help in the management of your club.

# Need of System

- This system will help administration to work easily.
- To reduce paper work.
- To store large amount of persons data
- To increase the Gym member interest.
- To easily maintain Gym member information.

# Scope of the System

- Using computerised system , Time accuracy facts are considerable changed.
- To make existing system friendly.
- Fast and efficient information accessed.
- Easy to run on browser.
- System may be easily modify by admin.
- By using software Admin can easily maintain Gym (persons) record

# **Feasibility Study**

## **Technical Feasibility :-**

In this, one has the test whether the system can be developed by using existing technology or not. We have to use HTML to create web page and using CSS to design form and also web page and using Java to give some new features in web page.

## **Behavioral Feasibility :-**

The hotels already using many software to manage their information and since it is acceptable by both hotel administration as well as hotel staff, it is proven that operationally feasible

## **Legal feasibility :-**

Legal feasibility determines whether the proposed system conflicts with legal requirements,  
e.g. The data protection Acts. It will be done by some legal advisors.

# Hardware & Software Requirement

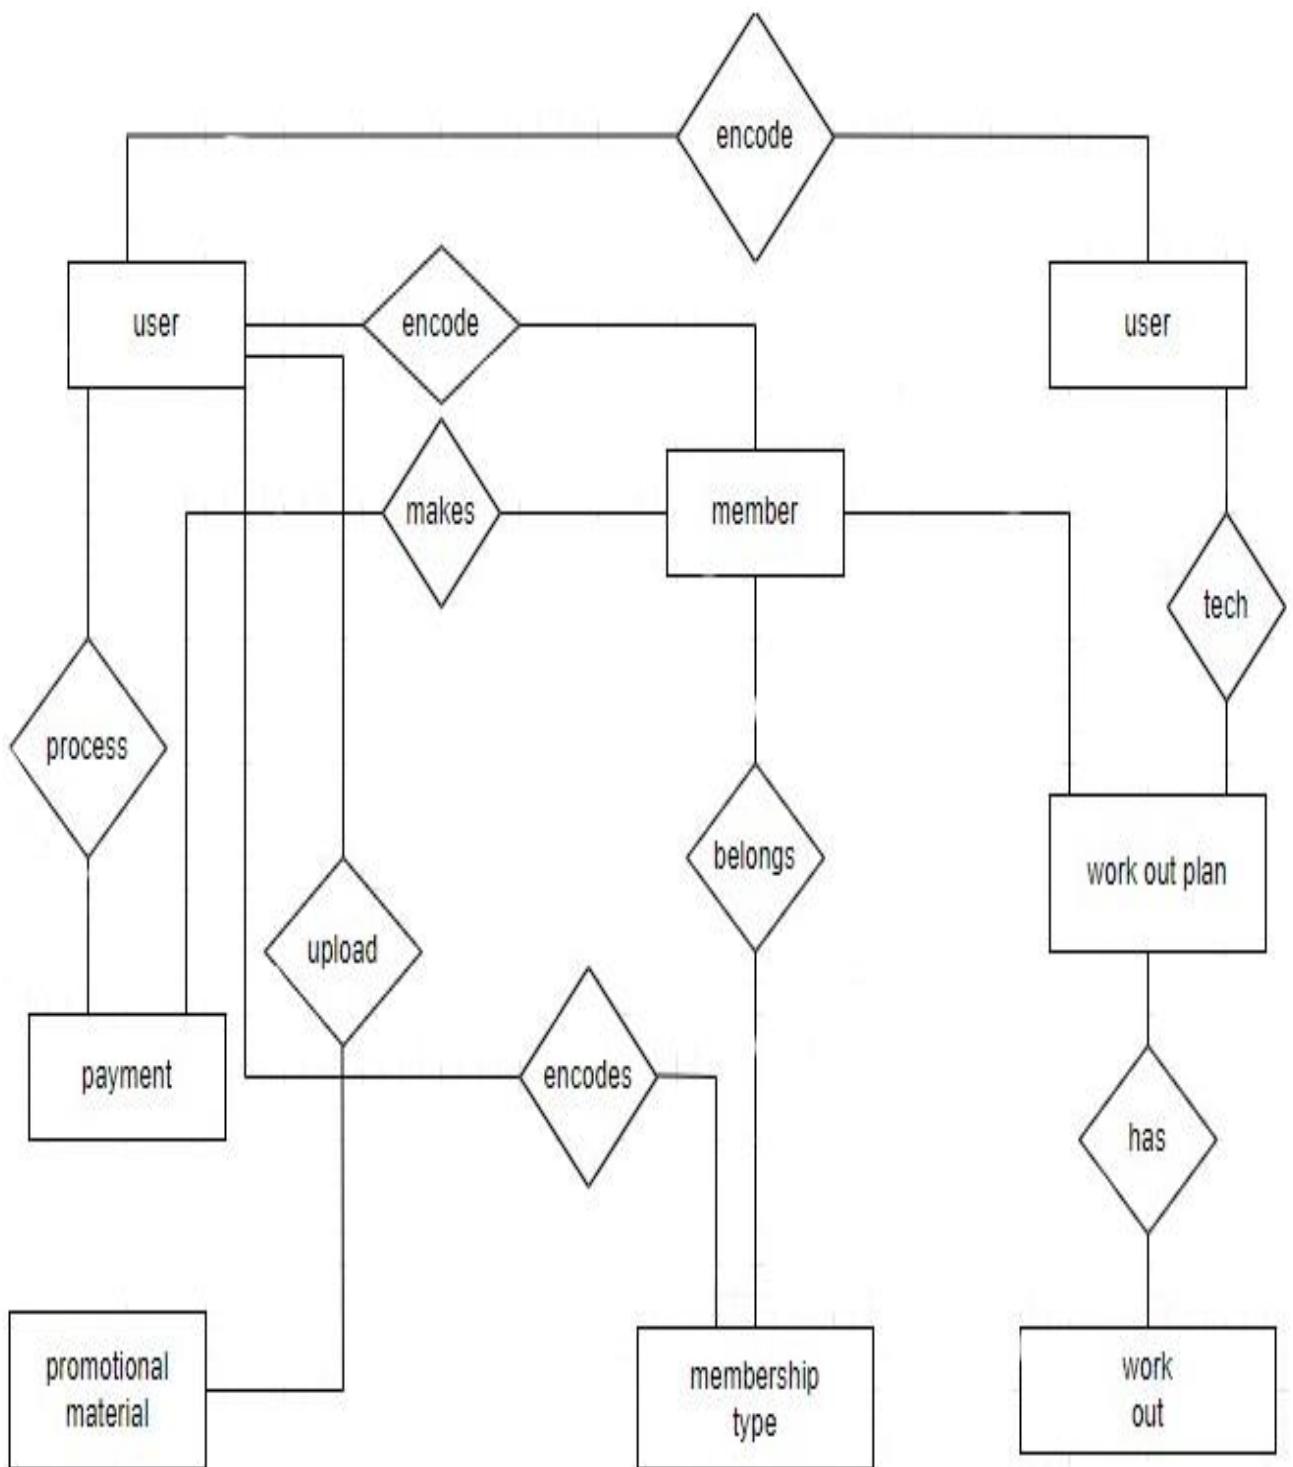

## Software specifications:

- **Server:** XAMPP ,Wamp Server
- **Web browser:** Any one Web browser like Google Chrome, Mozilla Firefox, Microsoft Edge, etc.
- **Text editor:** Visual Studio Code.
- **Operating System:** Windows 11 Pro
- **Front End:** HTML,CSS
- **Back End:** JavaScript, PHP
- **Database:** MySQL

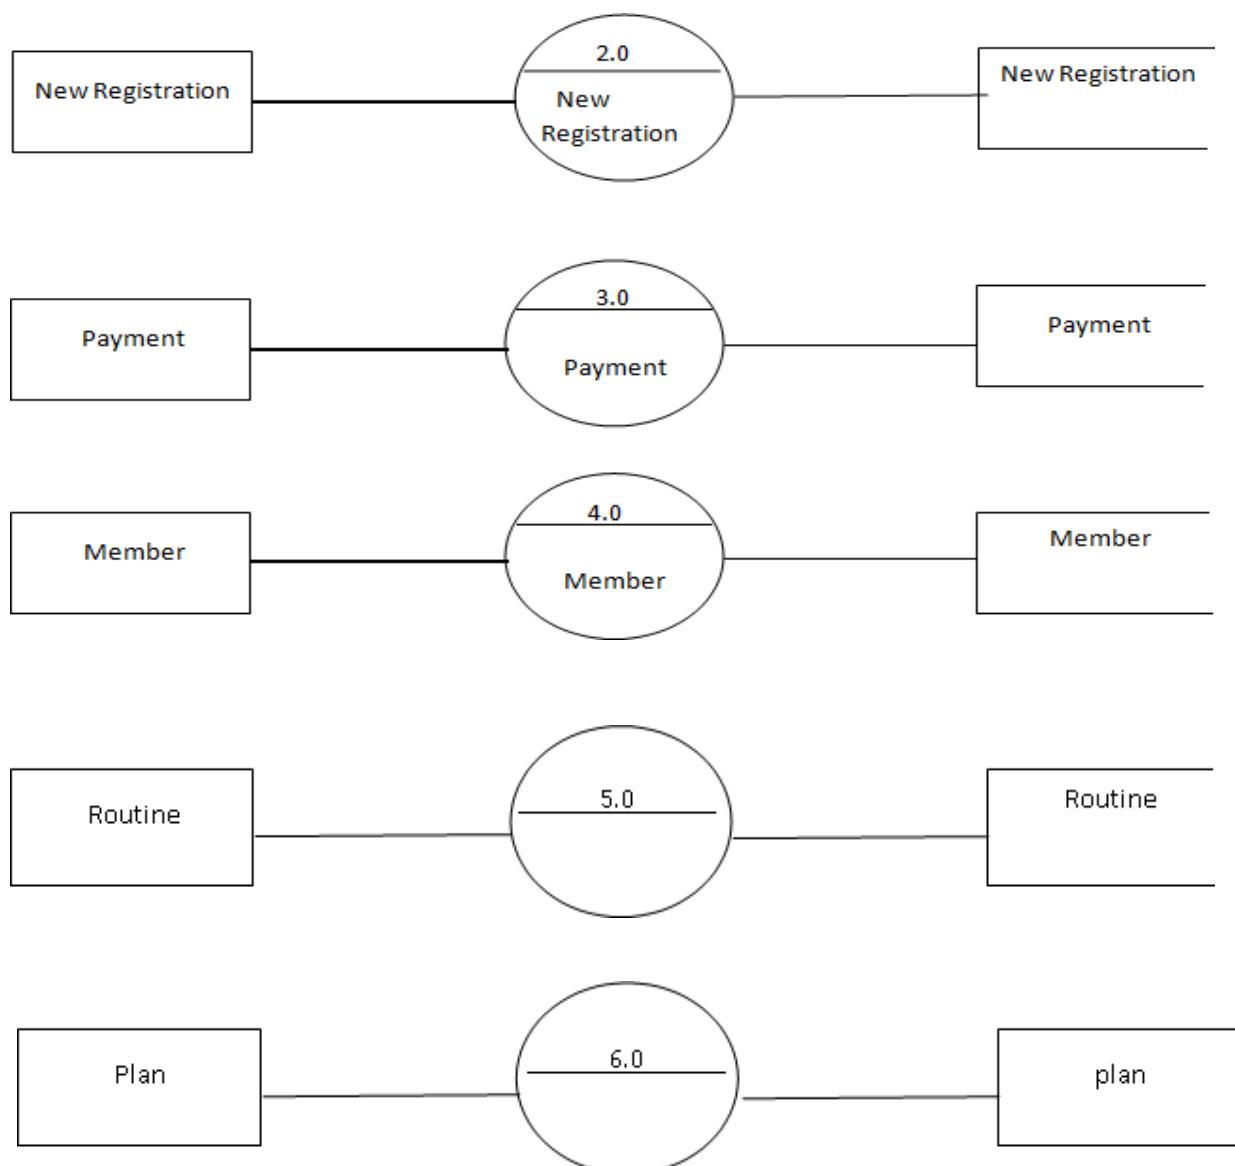

## Hardware Specifications:

<b>Processor</b>	Intel(R) Core(TM) i5 CPUM 460
<b>Installed Ram</b>	4.00 GB
<b>Clock Speed</b>	2.53 GHz
<b>Hard Disk</b>	HDD: 500GB SSD: 500GB
<b>Monitor</b>	IPS FHD 15.6 Inches

# E.R- Diagram

# Data flow Diagram

# **Advantages**

- The system is useful to all student to manage their academical growth.
- They track all understanding of their concepts to gain more knowledge.
- The system consists Interview preparation, Aptitude and reasoning part to prepare the base to become job ready.

# **Disadvantages**

- User can required any browser without browser user cannot run project.
- Internet may be required.
- Xampp or wamp server may be require at run time.

# Future Enhancement

- The computerization is made with the intention to make easy to maintain website and minimize the drawbacks of the manual system. In future this system can be made on which passenger can direct communication with website

# Objective of System

- The system is useful to all student to manage their academical growth.
- They track all understanding of their concepts to gain more knowledge.
- The system consists Interview preparation, Aptitude and reasoning part to prepare the base to become job ready.

# Conclusion

This project is designed to meet the requirements of Gym Management system . It hasbeen developed in HTML,CSS, and PHP languages keeping in mind the specification of the system For designing the system we have used simple data flow diagrams.

Overall the project teaches us the essential skill like using the system analysis anddesign techniques like data flow diagram in designing the system
